Baltimore Lock Hospital.

DR. JOHNSTON,

Physician of this celebrated Institution, has discovered the most Certain, Speedy, Pleasant and Effectual Remedy in the World for all

DISEASES OF IMPRUDENCE,

Weakness of the Back or Limbs, Strictures, Affection of the Kidneys or Bladder, Involuntary Discharges, Impotency, General Debility, Nervousness, Dyspepsia, Languor, Low spirits, Confusion of Ideas, Palpitation of the Heart, Timidity, Trembling, Dimness of Sight or Giddiness, Disease of the Head, Throat, Nose or Skin, Affections of the Liver, Lungs, Stomach or Bowels—those terrible Disorders arising from Solitary Habits of Youth—secret and solitary practices more fatal to their victims than the song of the Syrens to the Mariners of Ulysses, blighting their most brilliant hopes or anticipations, rendering marriage, &c., impossible.

YOUNG MEN

Especially, who have become the Victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to ecstasy the living lyre, may call with full confidence.

MARRIAGE.

Married persons, or Young Men contemplating marriage, aware of Physical Weakness (Loss of Procreative Power—Impotency), Nervous Excitability, Palpitation, Organic Weakness, Nervous Debility, or any other Disqualification, speedily relieved.

He who places himself under the care of Dr. J. may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a physician.

ORGANIC WEAKNESS,

IMPOTENCY, LOSS OF POWER,

Immediately Cured and Full Vigor Restored.

This distressing Affection—which renders life miserable and marriage impossible—is the penalty paid by the victims of improper indulgences. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of procreation is lost sooner by those falling into improper habits, than by the prudent? Besides being deprived of the pleasures of healthy offspring, the most serious and destructive symptoms of both body and mind arise. The system becomes deranged, the Physical and Mental Functions weakened, loss of Procreative Power, Nervous Irritability, Dyspepsia, Palpitation of the Heart, Indigestion, Constitutional Debility and Wasting of the Frame, Cough, Consumption, Decay and Death.

A CURE WARRANTED IN TWO DAYS.

Relief in Six Hours! No Mercury!

Persons Ruined by Ignorant, Trifling Pretenders and their Deadly Poisons, should apply immediately.

DR. JOHNSTON,

Member of the Royal College of Surgeons, London, Graduate of one of the most eminent Colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who have injured themselves by improper indulgence and solitary habits, which ruin both body and mind, unfitting them for either business, study, society or marriage.

These are some of the sad and melancholy effects produced by the early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c.

MENTALLY.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self-Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

Thousands of persons of all ages can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emaciated, having a singular appearance about the eyes, cough and symptoms of Consumption.

YOUNG MEN

who have injured themselves by a certain practice, indulged in when alone, a habit frequently learned from evil companions or at school, the effects of which are nightly felt, even when asleep, and if not cured, renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, the pride of his parents, should be snatched from all prospects and enjoyments of life by the consequence of deviating from the path of nature, and indulging in a certain secret habit. Such persons must, before contemplating

MARRIAGE,

Reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without these the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view; the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another is blighted with our own.

DISEASE OF IMPRUDENCE.

When the misguided and imprudent votary of pleasure finds that he has imbibed the seeds of this painful disease, it too often happens that an ill-timed sense of shame or dread of discovery deters him from applying to those who, from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disease make their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, deafness, nodes on the shin bones and arms, blotches on the head, face and extremities, progressing with frightful rapidity, till at last the palate of the mouth or bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commiseration, till death puts a period to his dreadful sufferings, by sending him to "that undiscovered country from whence no traveller returns."

It is a melancholy fact that thousands DIE victims to this terrible disease, through falling into the hands of ignorant or unskillful PRETENDERS, who, by the use of that deadly Poison, Mercury, &c., destroy the constitution, and incapable of curing, keep the unhappy sufferer month after month taking their noxious or injurious compounds, and instead of being restored to a renewal of Life, Vigor and Happiness, in despair leave him with ruined Health to sigh over his galling disappointment.

To such, therefore, Dr. Johnston pledges himself to preserve the most inviolable Secrecy, and from his extensive practice and observations in the great Hospitals of Europe and the first in this country, viz: England, France, Philadelphia, and elsewhere, is enabled to offer the most Certain, Speedy and Effectual Remedy in the World for all Diseases of Imprudence.

DR. JOHNSTON,
OFFICE No. 7 S. FREDERICK STREET,
BALTIMORE, MD.,

left hand side going from Baltimore street, a few doors from the corner. Fail not to observe name and number.

No letters received unless post-paid and containing a stamp to be used on the reply. Persons writing should state age, and send a portion of advertisement describing symptoms.

There are so many Paltry, Designing and Worthless Impostors advertising themselves as Physicians, trifling with and ruining the health of all who unfortunately fall into their power, that Dr. Johnston deems it necessary to say especially to those unacquainted with his reputation that his credentials or Diplomas always hang in his office.

ENDORSEMENT OF THE PRESS.

The many thousands cured at this Establishment, year after year, and the numerous important Surgical Operations performed by Dr. Johnston, witnessed by the representatives of the press and many other persons, notices of which have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is sufficient guarantee to the afflicted.

AGENTS AND DEALERS IN
PIANOS, CABINET ORGANS, MELODEONS
AND ALL KINDS OF
MUSICAL INSTRUMENTS,

respectfully inform the public that they are prepared to furnish Pianos of the following manufacture or of any other make that may be preferred:

Albright, Reikes & Schmidt,
Chickering & Son, Bradbury,
Knabe & Son, Gale & Son,

ESTEY'S CELEBRATED
COTTAGE, HARMONIC AND BOUDOIR
ORGANS AND MELODEONS.

These instruments stand unrivalled by anything found in this country or in Europe, as is admitted by all impartial judges. The most eminent Pipe Organ Builders and Performers, the last to discover excellence in reed Tone, pronounced them vastly superior to all others for exceedingly quick articulation and round Tone, the essential feature in instruments of this class. We invite the severe scrutiny and criticism of all.

PATENT VOX HUMANA TREMOLO.

This late and most wonderful invention (so acknowledged by all leading artists) will be found only in the Estey Instruments. In attempting to describe the effect of this stop, we are at loss for language. Its beauties cannot be written, but must be heard to be appreciated. By this stop an ordinary performer can produce an effect which requires a life time of practice for an artist upon a violin. It entirely changes the reed Tone, giving the sympathetic sweetness of the human voice, making it so melodious and pure that it never fails to enchant the listener.

THE HARMONIC ORGAN

for Churches, Public Halls and Parlors has a powerful sub-Bass with independent reeds, Harmonic attachment and Vox Humana Tremolo, and is believed to be the most powerful reed organ made, being nearly equal to a Pipe Organ of three times the cost.

All instruments warranted for five years.

BRASS BANDS supplied with instruments and music at reasonable terms.

A liberal discount allowed for Churches and Sabbath Schools.

Instructions given both in Vocal and Instrumental Music, at our rooms, and at pupils' homes, either to individuals or classes, on reasonable terms.

GETTYSBURG, PENN'A.

THE undersigned have opened a new LIVERY, SALE AND EXCHANGE STABLE, in this place, and are prepared to offer superior accommodations in this line. We have provided ourselves with

BUGGIES, CARRIAGES, HACKS, LIGHT WAGONS, &C.,

of the latest styles, sufficient to meet the public demand. Our horses are good, without spot or blemish, and perfectly reliable—none of your "old cripples," but all of the "2.40" order.

Riding parties can always be accommodated and comfortable equipments furnished.

Parties, large or small, can just get what they want on the most accommodating terms.

Visitors to the Battle-field politely attended to, and reliable drivers furnished if desired.

Parties conveyed to and from the Depot, upon the arrival and departure of every train.

Horses bought, sold or exchanged, and always a chance for bargains given. Our motto is "fair play and no gouging."

Particular attention paid to furnishing Vehicles and Hacks for Funerals.

We flatter ourselves that by charging moderately, and by furnishing superior accommodations, we cannot fail to please every one who patronizes our establishment.

STILL AHEAD!

HOFFHEINS' REAPER AND MOWER,

One of the Greatest Machines of the Age,

IS superior to any other Machine now in use, and will excel any that will ever be introduced, having been thoroughly tried and given general satisfaction. I would now inform all those who intend purchasing Machines to call and examine for themselves. This Machine is noted particularly to excel all other machines in strength, durability, ease of draft, and reliability of work, in all kinds of grass and grain. It cuts lodged grain admirably, which is a great item in Machines to a farmer. It can be used as a hand rake as well as a self-raker. It cuts 5 feet 2 inches in grain; 4 feet 10 inches in grass; has a steel cutter bar, with wrought iron guards; it can be used as a Single Mower as well as a Combined Machine.

A full trial of the Machine can be had.

Also, SHIREMAN'S SELF-DISCHARGING HORSE RAKE, and the great and well-known GRANT RAKE, the best rakes ever introduced.

We would also call your attention to the IRON DOUBLE SHOVEL PLOUGH, wrought iron frame, very light and strong, steel shovels, easily adjusted to run shallow or deep, and is neatly and tastefully made.

Also, THE KEELER AND EXCELSIOR FANNING MILL, the old Bamborough Fan improved, for many years a great favorite among the farmers of Pennsylvania. It is large and strong, has two cockle screens, and warranted to work perfectly.

Also all kinds of FARMING IMPLEMENTS always on hand.

Any person wishing to examine these machines can see them at the Battle-field Hotel, or at my residence, 4 miles from Gettysburg, between the Taneytown road and the Baltimore pike.

FISHING.

Now, when the first foul torrent of the brooks,
Swell'd with the vernal rains, is ebb'd away,
And, whitening, down their mossy tinctured stream
Descends the billowy foam; now is the time,
While yet the dark-brown water aids the guile,
To tempt the trout. The well dissembled fly,
The rod fine tapering with elastic spring,
Snatch'd from the hoary steed the floating line,
And all thy slender wat'ry stores, prepare.
But let not on thy hook the tortur'd worm,
Convulsive, twist in agonizing folds;
Which, by rapacious hunger swallow'd deep,
Gives, as you tear it from the bleeding breast
Of the weak, helpless, uncomplaining wretch,
Harsh pain, and horror to the tender hand.

When with his lively ray the potent sun
Has pierc'd the streams, and rous'd the finny race,
Then issuing cheerful, to thy sport repair;
Chief should the western breezes curling play,
And light o'er ether bear the shadowy clouds.
High to their fount, this day, amid the hills,
And woodland warbling round, trace up the brooks;
The next, pursue their rocky channel'd maze,
Down the river, in whose ample wave
Their little Naiads love to sport at large.
Just in the dubious point, where with the pool
Is mix'd the trembling stream, or where it boils
Around the stone, or from the hollow'd bank
Reverted plays in undulating flow,
There throw, nice judging, the delusive fly;
And as you lead it round in artful curve,
With eye attentive mark the springing game.
Straight as above the surface of the flood
They wanton rise or urg'd by hunger leap,
Then fix, with gentle twitch, the barbed hook;
Some lightly tossing to the grassy bank,
And to the shelving shore, slow-dragging some,
With various hand proportion'd to their force.
If yet too young, and easily deceiv'd,
A worthless prey scarce bends your pliant rod,
Him, piteous of his youth, and the short space
He has enjoy'd the vital light of Heaven,
Soft disengage, and back into the stream
The speckled captive throw. But should you lure
From his dark haunt, beneath the tangled roots
Of pendant trees, the monarch of the brook,
Behooves you then to ply your finest art.
Long time he, following cautious, scans the fly;
And oft attempts to seize it, but as oft
The dimpled waters speak his jealous fear.
At last, while haply o'er the shaded sun
Passes a cloud, he desperate takes the death,
With sullen plunge. At once he darts along,
Deep struck, and runs out all the lengthened line;
Then seeks the farthest ooze, the sheltering weed,
The cavern'd bank, his old secure abode;
And flies aloft, and flounces round the pool,
Indignant of the guile. With yielding hand,
That feels him still, yet to his furious course
Gives way, you, now retiring, following now,
Across the stream exhaust his idle rage;
Till floating broad upon his breathless side
And to his fate abandon'd, to the shore
You gayly drag your unresisting prize.

THOMSON.

A CURIOUS LEGEND.—When Adam was far advanced in years and at the point of death, he sent his son to the angel Michael, who kept the gate of Paradise, to pray for the oil of mercy, so that he could be healed. The angel answered that it could not be until fifty-five hundred years, but he gave Seth a branch of the tree of which Adam had eaten, bidding him plant it on Mount Lebanon, and that when it bore fruit his father should be healed. Seth planted the branch on his father's grave; it took root and grew, and from it were made Aaron's rod, and Moses' staff with which he struck the rock and sweetened the waters of Marah. It also formed the pole on which the brazen serpent was lifted, and the ark of the testimony. At last it came into the hands of Solomon, who used it in building his palace, but it continually resisted the efforts of the builders to adjust it. Now it was too long, and then again too short. The builders, being angry, then threw it into a marsh, so that it might serve as a bridge. The queen of Sheba would not walk upon it, but adored it, and told Solomon that upon it should be suspended the man through whose death the kingdom should be destroyed. Solomon then had it buried deep in the ground, where afterward the pool of Bethsaida was dug, and from the virtues of this tree healing properties were imparted to the waters. After it had been buried three hundred years it rose to the surface of the water, and the Jews took it and made it the cross of our Saviour.—*Lippincott's Magazine.*

A MAN 143 YEARS OLD—NORTH CAROLINA AHEAD.—There is a man living in the mountains of North Carolina, not more than forty miles from Greenville, S. C., says the Tarboro' *Carolinian*, who has reached the extraordinary age of 143 years. At the time of Braddock's defeat he was 20 years old, and had a wife and three children. A gentleman at Greenville states that this man had come down to us from a former generation, had always been in moderate circumstances, and lived upon plain, coarse vegetable diet; he never drank any liquid but spring water, and bids fair to live many years longer. He enjoys perfect health, possesses all of manhood's attributes, and wishes to marry. He has survived seven wives, and having lost his last one about sixty years ago, he now begins to feel quite lonely.

HUNTING SEALS IN ALASKA.—The way the natives of Alaska capture seals is graphically told by a writer in the *Old and New.* In the spring of the year the animals gather in great numbers at certain points on the coast, to which the hunters repair. By shouts and waving of clubs, the seals are scatterd in all directions, some rushing to the water and others leaping in an opposite direction up the slope. The latter are urged on by the natives, farther and farther from the coast, until a settlement is reached three or four miles away. There the exhausted seals are separated into small droves and killed with spears. Sometimes nearly 5,000 of these creatures are started inland from the beach.

THE FRENCH VOTE.—The result of the late election in France upon the plebiscitum was—yeas, 7,336,434; nays 1,560,709. In the elections of 1869 the government received only 4,000,000 votes, and the opposition 3,200,000. Even in Paris, where the opposition had in the late election a majority of about 46,000, the vote last year stood for the government, 66,117; for the opposition, 229,758. The Emperor would seem to be improving his hold upon the French people.

THOMAS JEFFERSON.

While this distinguished statesman and patriot was Vice-President of the United States, it was customary for the individual holding the said high office to attend to business more in person than the refinements of more modern times will allow. It happened once that some important matters required his attention in Philadelphia, and some other places distant from the capital. In those days a journey to Philadelphia was not to be performed in a few hours—it was two or three days' travel, and none of the most pleasant sort either. On his return he stopped in Baltimore. It was four or five o'clock in the afternoon when the Vice-President rode up, suitless and unattended, to the tavern. A Scotchman by the name of Boyden kept the hotel, of late so much improved and now so handsomely sustained by our worthy townsman Beltshoover. The bucks of the town were assembled in the large hall, smoking, cracking jokes and otherwise indulging in the etceteras of the day. Boyden was at the bar examining the books, and doubtless making calculations respecting his future prospects. Jefferson had delivered his horse into the hands of the hostler, and walked into the tavern in order to make arrangements in regard to his fare. Some one touched Boyden on the elbow, and directed his attention to the stranger, who stood with his whip in hand, striking it occasionally upon his muddy leggings. Boyden turned around and surveyed him from head to foot, and concluding him to be an old farmer, from the country, whose company would add no credit to his house, said abruptly:

"We have no room for you, sir."

Jefferson did not hear the remark, and asked if he could be accommodated with a room. His voice, which was commanding and attractive, occasioned another survey of his person by the honest *proprietor* of the house, whose only care was for its reputation. He could not find, however, in his plain dress, pretty well covered with mud, anything indicating either wealth or distinction, and in his usual rough style he said:

"A room?"

Jefferson replied, "Yes, sir, I should like to have a room to myself, if I can get it?"

"A room all to yourself? No, no—we have no room—there's not a spare room in the house—all full—all occupied—can't accomodate you."

The Vice-President turned upon his heel, called for his horse, which by this time was snug in the stable, mounted and rode off. In a few minutes one of the wealthiest and most distinguished men in the town came in and asked for the gentleman who rode up to the door a few minutes before.

"Gentleman?" said Boyden.

"There has been no gentleman here on horseback this afternoon, and no stranger at all, but one common country looking fellow, who came in and asked if he could have a whole room, but I asked him out of that mighty quick, I tell you. I told him I had no room for such chaps as him."

"No room for such chaps as him?"

"No, by the pipers, no room for anybody that don't look respectable."

"Why, what are you talking about, man? He's the Vice-President of the United States."

"Vice-President of the United States!" exclaimed Boyden, almost breathless with astonishment.

"Why, yes, sir. Thomas Jefferson, Vice-President of the United States, and the greatest man alive."

"Murder, what have I done? Here Tom, Jerry, Dick, Jake—where are you all? Here, fly, you villains—fly, and tell that gentleman we've forty rooms at his service! Vice-President—Thomas Jefferson! Tell him to come back and he shall have my wife's parlor—my own room! Jupiter! what have I done? Here, Harriet, Mary, Jule, clear out the family! he shall have the best room—and all of the rooms if he wants them! Off, you hussies, put clean sheets on the bed! Bill, take up this mirror! George, hurry up with the boot-jack! By George, what a mistake."

For fifteen minutes Boyden raved like a madman, and went fifty times to the door to see if his wished-for guest was returning. The Vice-President rode up Market street, where he was recognized by many of his acquaintances, and by them directed to the Globe tavern, which stood somewhere near the corner of Market and Charles streets. Boyden's servants came up, and told him their master had provided rooms for him.

"Tell him I have engaged rooms," said Jefferson.

Poor Boyden's mortification can better be imagined than described; the chaps who were loitering about the bar and the large hall, and had laughed heartily at the disappointment of the muddy farmer, had recovered from their astonishment, and were preparing to laugh at their downcast landlord. After some time he prevailed upon some friend to wait on Mr. Jefferson with his apology, and requested that he should return and take lodgings at his house, promising the best room and all the attention that could be given him.

Mr. Jefferson returned the following answer: "Tell Mr. Boyden," said he, "that I appreciate his kind attentions, but if he had no room for the muddy farmer, he shall have none for the Vice-President."

MOST young men consider it a great misfortune to be born poor, or not to have capital enough to establish themselves, at their outset in life, in a good and comfortable business. This is a mistaken notion. So far from poverty being a misfortune to them, if we may judge from what we every day behold, it is really a blessing; the chance is more than ten to one against him who starts with a fortune.

HERE is the pithiest sermon ever preached: "Our ingress in life is naked and bare; our progress through life is trouble and care; our egress out of it we know not where; but doing well here we shall do well there."

WE speak evil of others; and should we not fear the evil they may say of us? Speak of no neighbor if thou wouldst not hear what will trouble thee.

ONE HALF GUILTY. — A fellow named Donks was lately tried at Yuba, Cal., for entering a miner's tent and stealing a bag of gold dust valued at $84. The testimony showed that he had once been employed there and knew exactly where the owner kept his dust; that on the night specified he cut a slit in the tent, reached in, took the bag, and then ran off. Jim Butler, the principal witness, testified that he saw the hole cut, saw the man reach in, and heard him run away.

"I rushed after him at once," he continued; "but when I cotched him I didn't find Bill's bag; but it was found afterwards where he had throwed it."

"How far did he get in when he took the dust?" inquired the counsel.

"Well, he was stoopin' over half way in I should say," replied the witness.

"May it please your honor," interposed the counsel, "the indictment isn't sustained, and I shall demand an acquittal by direction of the court. The prisoner is on trial for entering a dwelling in the night time with intent to steal. The testimony is clear that he made an opening through which he protruded himself half way, and stretching out his arms, committed the theft. But the indictment charges that he actually entered the tent or dwelling? Now, your honor, can a man enter a house when only one half of his body is in and the other half out?"

"I shall leave the whole matter to the jury. They must judge of the law and the facts as proved," replied the judge. The jury brought in a verdict of "Guilty as to one half of the body, and not guilty as to the other half."

The Judge sentenced the guilty party to two years' imprisonment, leaving it to the prisoner's option to have the innocent half cut off or take it along with him.

"MYRA MYRTLE" comes down in the following style upon those bashful swains who dawdle and dangle, and wear out the girls' patience and good clothes, make a protracted meeting of their halcyon days, and never summon courage sufficient to pop the question and then question Pop:

If there is anything more disheartening to a woman than a long courtship I have yet to discover it. From the woman who marries for a home—and there are far too many who do that—to the fair creature who marries for love, there are thousands who are kept in suspense for years, not knowing whether the man whom they expect to marry is really going to propose or not. It is very certain that long courtships seldom result in matrimony. It generally happens that the faults of both parties are made evident, and the desire for separation is mutual.

But no young (or old) man has any right to monopolize the attentions of a lady for years and then coldly dismiss her. By so doing he possibly prevents her from marrying some one who would be glad to have her, and acts a part which no gentleman will. So, gentlemen, when you have decided that the lady is worthy of your choice (and don't be too long about it) "pop the question" and set her heart at rest.

THE THEORY OF FIRE.—Old Joe B. was quite an old man, but somewhat too fond of the bottle. When in his cups, his ideas tended towards theological matters, which he always avoided in his sober moments.

It was Saturday afternoon, the family baking day, and his good wife wanted some wood for the oven.

"Joe, I do wish you would go and split some wood. Here it is nearly two o'clock, and the fire aint made."

Joe went out to execute his commission; but fearing his physical condition was weak, marched to the neighboring tavern to fortify himself therein. He returned home, utterly oblivious to all things save his pet theories. Seating himself in his chair, he said—

"I say, [hic] Jane, do you [hic] think the Lord [hic] means to burn us all [hic] up in fire?"

His venerable spouse, being exceedingly irate, did not answer. Again he repeated his question. Still an ominous silence.

"Wife, do you think the Lord means to burn us up in fire everlasting?"

Human nature could endure it no more.

"No!" said the now thoroughly aroused housewife; "no, you old fool, not if He waits for you to split the wood!"

A GHOST drove an entire family tumultuously from a house in Oswego, at a late hour on a recent Sunday night. After a while their excitement was allayed, and on investigation they found that a cow, on a foraging raid, had made her way into a rear kitchen and inserted her head into an empty flour barrel. The barrel became fast on her horns, and, unable to escape the incumbrance, the terrified animal commenced a frantic rampage about the apartment, with the result above described.

How very thoughtful and considerate some editors are, for instance, to make suggestions like the following when commenting upon the death of a young Vermont girl from the effects of tight-lacing: "These corsets should be done away with, and if the girls can't live without being squeezed, we suppose men can be found who would rather devote three hours a day, without a cent of pay, as a brevet corset, than see these girls dying off in that manner."

AT one time Daniel Webster had a difficult case to plead, and a verdict was rendered against his client. One of the witnesses came to him and said: "Mr. Webster, if I had thought we should have lost the case, I might have testified a great deal more than I did." "It is of no consequence," replied the lawyer. "The jury did not believe a word you said."

THE following is a literal copy of an application made to the Truro (Nova Scotia) board of guardians for an appointment as industrial teacher in the work-house:

GREAT SNAKE HUNT IN OHIO.

On the 10th ult., in Big Island township, this county, on the farm of Mr. Alexander Campbell, a great snake hunt occurred. The party was headed by Capt. Jackson Brady, who led his gallant company down into the tall prairie grass, and surrounding a twenty acre lot, set fire on the outer edge of the grass at 4 o'clock P. M. The grass burned well, the flames rolling up ten feet high. As the fire advanced the snakes retired to the centre, sometimes making desperate efforts to spring through the flames, but the blaze being too heavy they were killed in the attempt. At 6.45 P. M., the ground was burned over, and Capt. Brady went over the field of carnage looking up the *debris* of the great army of snakes, and by actual count there were found to be 13,983 snakes of all sizes. One black racer was nine feet and four inches long and seven inches in circumference!

This may be considered a good day's work for this neighborhood, as the snakes had become so bad that small children were afraid to go to school, and they even attacked some adults, several having been bitten on their boots. Some imagined snakes in their boots, and it had become a common thing for fifty or a hundred snakes to chase men, women and children across this prairie. The milk snakes were constantly milking the cows, and thereby interfering with the dairy business, in that section.

We congratulate the Big Islanders upon their happy escape from snakes, but regret that they chose the Sabbath day for the work. Perhaps they thought "the better the day the better the deed."—*Marion (Ohio) Mirror.*

THRILLING EXHIBITION BY AN INSANE WOMAN.—It was one day during last month that a telegram from Jacksonville, Ill., related the following: Yesterday afternoon, at the Illinois Hospital for the Insane, located in this city, a most appalling, exciting and thrilling scene was witnessed by many persons. An insane woman in some way escaped from the apartment in which she had been confined, rushed up the stairway, leaped upon the roof, and dashed away to the end of the building, swung herself over the edge of the roof and dropped to a cornice, six or eight feet below. Upon this cornice, a foot wide and seventy-five feet above the ground, the wild maniac walked back and fourth for a quarter of an hour. Men rushed to the roof and passed a rope to her, and tried to persuade her to fasten it about her body, but in vain. Below, beds were brought and placed, to break the fall, should she leap from her perilous position. After remaining on the cornice fifteen minutes, seemingly unconscious of all danger, she swung off, and holding by the cornice until her feet touched a cap of the fifth story window, she let go the cornice, and, wonderful to relate, alighted erect and steady upon the cap, which was but a foot wide and four feet long. There, at that fearful and dizzy height, she stood gazing about for a quarter of an hour. Then she seized firmly the rope lowered to her, and leaped into the air. The strong arms above gradually lowered her, and when she was about thirty feet from the ground she relaxed her hold, and fell upon the beds below, and, although stunned, was taken up uninjured.

LORD ELDON, once speaking of circumstantial evidence, remarked: "I remember once in a case where I was counsel, that the evidence for a long time did not appear to touch the prisoner at all, and he looked about him with the most perfect self control, evidently feeling himself quite safe. At last a surgeon was called, who stated that the deceased had been killed by a gun shot wound in the head, and he produced the matted hair and stuff cut from, and taken out of the wound. It was all hardened with blood. A basin of water was brought into court, and as the blood was gradually softened, a piece of printed paper appeared, the wadding of the gun, which proved to be a part of a ballad.—The other half had been found in the man's pocket when he was arrested. He was hanged."

AN IMPERIAL MORMON.—The Emperor of China is fifteen years old, and is to be married this year, with immense pomp, to his chief wife, his empress. He will be simultaneously provided with second and third wives; and from all parts of the Empire victims are being collected to swell the list of his harem. Every Tartar family, we believe, is obliged to furnish its quota. Local selections are first made, and the holocaust is sent to Pekin, where a fresh selection takes place, and a "chosen" number are condemned to a life-long seclusion. They are not allowed to see their relations, may never see their lord and master, and in the event of his death they are still condemned to perpetual isolation and celibacy.

"BURLEIGH," of the Boston *Journal*, writes of Bonner when on the road with Dexter: "Bonner makes his appearance at a slow pace, apparently indifferent to the impression produced. He watches to see that the coast is clear. By common consent, when Bonner appears the road is cleared. A Dacotah Indian might take lessons of Bonner in his yells. As Dexter starts on his course, his driver can be heard half a mile off. The excited throng shout, 'That's Bonner,' and all come to their feet. The team rushes by with the fleetness of the wind, and is out of sight in an instant."

A DETROIT negro prisoner, on his way to the penitentiary for larceny, was asked what he thought of his trial. He said: "When dat lawyer dat fended me made his speech, I thought shuah I was going to take my ole hat and walk right out of dat co't room; but when de oder lawyer got up and commenced talking, I knew I was de biggest rascal on top of de earf."

BEHOLD how pleasant it is for brethren to dwell together in unity. The New York *Times*, Radical, says of the *Tribune*, also Radical: "It is a mean, cowardly, slanderous, and dishonest sheet, and it has probably done more to degrade morals and journalism than any paper which was not liable to be instantly suppressed by the police."

THE TOMATO—AND ITS CULTURE.

This fruit, long known as "the love apple," and said to have come from the far south, has rapidly gained favor wherever grown. It is susceptible of great improvement, though it has generally received less attention than most garden vegetables. While under careful culture it has been long in reaching its present state, the tomato has been a comparatively short time under culture, and yet, nature has done so much for it that it already holds high rank among our finest fruits of the garden.—Many medical men claim for it valuable hygienic qualities, and the human system—that most perfect of all laboratories—has confirmed the decision. It is delicately acid, cooling and healthful.—In hot weather our children seize the golden "love apples" and quench their thirst, while we all use them at our tables.

Since this fruit must be brought to perfection, why grow coarse, unsightly, spongy, ill flavored tomatoes, when by attending to a few simple, but important things, the finest qualities may be had?

A great deal might be said on varieties; but after having tried the most popular ones the writer now grows "Lester's Perfected Tomatoes" in preference to all others.

Pruning.—As the greater part of the fruit on the tomato vine is borne near the ground, it will be found that the shortening of the vines will cause nutrition to flow to fruit instead of making branches. Don't be afraid to cut out all suckers and non-bearing branches, and to shorten those that wander. The writer knows that the advantages of pruning are questioned by some, but he has learned by experience, whatever may be the *rationale* of the matter, the results are in favor of rather *severe* pruning.

Keeping the Fruit Clean.—The fruit may be kept clean and prevented from premature decay by spreading brush, salt hay, or other such material under the vines, or by training them. But if the soil be light and dry this will not be necessary, especially for a general crop. In garden culture, if it be thought best to train the vines a simple way is to set poles twelve feet apart, the tops five feet high. Attach wires horizontally to them, which will form a cheap trellis for the vines, thus exposing them to the free action of the sun and air. The flavor of the fruit thus grown will be finer than that ripened on the ground.

IT is better to prune raspberries and blackberries early in the season, but better late than not at all. Even after the plants are in bloom or the fruit is half grown, it will aid much in increasing the size, and quite often prevent a failure to ripen, particularly in time of severe drought. Almost every one who grows these fruits fails to prune sufficiently for the good of the plants and fruit. Shorten the main canes one fourth or one third, and the lateral shoots at least one half. Lessen the number of fruit and increase the size by doing so, is the practical maxim of practical horticulturists.

BETTER STUDY HISTORY.—Sumner, and all progressive Radicals, are exceedingly happy because the carpet-bag Legislature of Alabama has passed a law to legalize marriage between the whites and negroes. But Sumner and his political friends should remember that the negro question has already been pressed too far, and that, by force and fraud alone, existing unconstitutional and unwise privileges have been granted to the blacks. The lessons of history in which Sumner pretends to be well versed, should at least teach him that tyrannical and unreasonable legislation always meets with a summary and terrible retribution.

NEARLY all the rum made in the United States is distilled in Massachusetts, and the distilleries are situated around Boston. A Boston paper, in a recent review of the trade in New England rum, says that the greater part of the export is sent to the African coast, and points with pride to the cargo of a recent bark, which consisted of tobacco, rum and four missionaries! And this is Christian and Radical Massachusetts, the land of steady habits and of "great moral ideas."

THEY have had cold weather in Vermont. An exchange says a little boy up there went out one evening, after getting a whipping, to have a good cry on the woodpile. An hour afterwards, when his mother went to hunt him, she found him pinned down to a white-oak log by icicles which had been formed from the tears as they ran from his eyes. He cries in the house now when he feels sad.

AN Irish glazier was putting a pane of glass into a window, when a groom who was standing by began joking with him, telling him to mind and put in plenty of putty. The Irishman bore the banter for some time, but at last silenced his tormentor by—"Arrah, now, be off wid ye, or else I'll put a pane in yer head without any putty."

UNSUBSTANTIAL EVIDENCE. — The principal evidence against a respectable citizen at Mansfield, Ohio, named Robinson, suspected of murdering his mistress, is that marks of teeth on her arm correspond with his teeth in size. But the cast of another man's teeth having been found to fit the marks, this evidence becomes still more unsubstantial.

HONESTY is never gained or lost suddenly, or by accident. Moral weakness or moral strength takes possession of us by slow and imperceptible degrees. It is always safe to trust those who can trust themselves, but when a man suspects his own integrity, it is time he was suspected by others. Moral degradation always begins at home.

EVERY man has in his own life follies enough—in his own mind troubles enough—in the performance of his duties deficiencies enough; without being over curious about the affairs of others.

"MAMMY," said a precious little boy, who against his will was made to rock the cradle of his baby brother, "if the Lord has any more babies to give away, don't you take 'em."

A NEGRO policeman in Charleston having scruples against using his club on an unruly prisoner, put down his head and butted him into insensibility.

THE young ladies of an Iowa town announce a "love-making and man-choosing meeting, admission 25 cents."

AN Ohio girl has laid by the sum of $600, all gained by making corn husk mats at ten cents each.

THE vote in Vermont, last week, on Female Suffrage, was almost unanimously against it.

Gettysburg Compiler.

FRIDAY, MAY 27, 1870.

BOTH Houses of Congress have agreed to adjourn *sine die* on the 15th of July.

IT is now thought that little or nothing will be done with the Tariff during the present session.

PRESIDENT GRANT has issued a proclamation against the anticipated Fenian raid on Canada from the United States.

FORNEY praises Gen. Longstreet's "gallantry in the field"—in slaying Union men—because he was marshal of a negro procession in New Orleans.

THE New York *Herald* thinks that the result of the election on the 17th inst., shows that the State of New York may be considered Democratic for an indefinite time to come.

GEORGE M. BOKEE, Esq., a merchant of Baltimore, has been chosen President of the Western Maryland Railroad, in place of Mr. Hoffman, resigned.

RADICAL papers say their vote was not out in New York. Likely not. *The Fifteenth Amendment was too much for them to swallow*, and they stayed away in consequence. So it will be everywhere.

THE "War Democrats" of Ohio are taking measures to effect a reunion with the old Democracy, having become sick of the low trickery to which the Radical leaders have resorted to retain their ascendency.

A NEW YORK negro voted the Democratic ticket, and for that offence was set upon by a gang of Radical "darks," and cruelly beaten. In noticing this occurrence the *Star* says: "What a howl of indignation there would have been had seventeen Irishmen beaten a negro for voting the Republican ticket. It makes all the difference in the world whose ox is gored."

THE bill presented by Mr. Cox, the other day, providing for a general amnesty, was defeated by the very close vote of 86 to 81. That shows that there is a small majority of Radicals in the Lower House of Congress who are opposed to giving the white men of one half of this country rights equal to those enjoyed by the negroes. By and by the negroes will shame these vindictive white Radicals into decency.

SHORTLY after the John Brown raid, Benjamin F. Butler, in a speech at Salem, Massachusetts, remarked: "The mistake is, we look at the South through the medium of the Abolitionists—a very distorted picture. Human progress is not to be set back a thousand years because of the difference of opinion as to the supposed rights and privileges of a few miserable negroes." What does the General think of a "few miserable negroes" now?

THE Democratic papers of Indiana are daily publishing the names of Radicals who have left that party on account of its adoption of the negro platform. Some of them are prominent and influential men, and the number of those hitherto Radicals who openly declare their purpose to vote against that party, is amply sufficient to revolutionize the State at the coming election. The white man's movement will destroy the Radical party in this nation.

THERE is scarcely a vestige left of Radicalism in the Empire State. Every branch of the government, including the Legislature and the supreme judiciary, is in the hands of the Democratic party. In that Commonwealth the Democratic party is, in truth, "a unit," while Radicalism is a hopeless "nonentity." So will it be throughout the Union! The grave of Radicalism is dug, and its epitaph is written: *"It died of too much Fifteenth Amendment."*

HOW NEGRO VOTES ARE CONTROLLED.—The Washington correspondent of the Baltimore *Sun* gives the following illustration of the manner in which the Bowen faction control the votes of the vast horde of negroes who are lounging in idleness about the National Capital:

Scene—New York Avenue. Eighteen Bowen voters at work on the street, sixteen of whom are leaning on pick-handles. The boss nigger is asleep against a tree box. He wakes up suddenly and exclaims: "Pick up dar, gemmun, pick up dar!" A feeble agitation of pick-handles follows, lasting some four or five minutes.—The "boss" goes to sleep again, and all hands sit down on the curb-stone. For this kind of labor, two dollars a day is paid.

SOME time after the death of Gen. Thomas, Gen. Hancock telegraphed Gen. Sherman to know why he had not been promoted to fill the vacancy, as was his right by seniority. Gen. Sherman showed his letter to the President, who dictated the substance of the reply, which was couched in the following insulting terms, viz:—

I am requested by the President to inform you that there is nothing in your personal relations to General Grant, or in your official relations to his administration, that could justify your promotion now, or lead you to expect it hereafter.

With Grant everything is "personal." Because Hancock has been too independent to make himself a "personal" favorite with the President, he must be tabooed, as Meade has been, and insulted in the bargain. It would be a most righteous judgment on the part of the people to elect Hancock to the Presidency over Grant in 1872—and stranger things have happened.

THE Congressional Committee on the District of Columbia have agreed to report favorably upon the question of mixed schools. In other words, negro children are to be forced on the same bench with white pupils, and social equality established by compulsion. Poor men who cannot afford to pay for the education of their offspring will have two things set before them. They must agree to negro equality in its most offensive form, or deprive their children of education. That is the meaning of the movement. Rich men can keep their children at private schools where the negro cannot enter. To them negro equality is meaningless. Not so the poor white man. His little boys and girls must come in contact with negroes, and suffer from that contact. Negro equality will damage the mechanics and workingmen of this country in the most positive manner, and they must take care of their interests at the polls.

EX SHERIFF Jacob S. Brown died in Chambersburg on Thursday of last week. Mr. Brown was elected Sheriff of Franklin county in 1856 and served three years.

ANOTHER PUSH FOR THE NEGRO.

Senator Sumner has introduced a bill into the United States Senate, for the purpose of preventing any distinction from being made in theatres and all other places of public amusement, hotels, railway carriages, steamboats, institutions of learning, churches and cemeteries, *throughout the United States*, on account of race or color. To-day if a negro enters the Continental Hotel or the Girard House in Philadelphia, he is not allowed to register his name and have a room assigned to him. It is the same in New York City. Sumner has resolved to break down this odious barrier. He has determined that equality for the negro before the law means that he shall be allowed to go without let or hindrance wherever the white man is allowed to go. If the negro desires to occupy a room, or even a bed at a hotel in company with a white man, he must be permitted to do it, no matter how many protests may be entered by the white man against such an arrangement. *Not to grant his request would be a discrimination on account of race or color.*

The negro must be allowed to go into any car he prefers, and sit on any seat he chooses. He must have any berth he desires. He must be taught in the same classes with the whites in the public schools, and no private institutions of learning are to be allowed to close their doors against him. There must be no schools exclusively for whites. A white boy at college must not dare to protest against having a colored boy for his room-mate. *That would be a discrimination on account of race or color.*

In the churches, negroes must be allowed to sit in the same pews with the whites. If you have a pew that you imagine is your own because you pay rent for it, you must not, on that account, presume to refuse a black man admission to it, alongside of your wife and daughter, because *that would be a discrimination on account of race or color.*

In the cemeteries, the black man must be buried by the side of the white man. Family lots will have to be surrendered as being too exclusive. As in life, so in death, *there must be no discrimination on account of race or color.*

If a white man desires a private box at a theatre to accommodate himself and some ladies and gentlemen of his acquaintance, he can have it, but if a negro wishes to sit in that same box, he is to have that same privilege, no matter how distasteful it may be to the white ladies and gentlemen. If it is too much crowded to admit another person, some one of the whites can retire so as to make room for the negro. *There must be no discrimination in anything, on account of race or color.* This fanaticism will run to such a terrible extreme that, in a short time, a white man dare not say *no* to a negro who solicits the hand of his daughter in marriage, because it will be *a discrimination on account of race or color.*

White men, what will you say at the polls to this doctrine of negro equality? Are you willing to aid in clothing the negro with privileges, the exercise of which is an infringement upon your own constitutional rights?

It has been well said that that country is *best* governed which is governed *the least.* But Americans are governed entirely too much. Our Congress seem to be afraid of the people all the time. Instead of legislating for them, they seem bent on enacting laws to limit their privileges and render worthless their dearest rights. If they keep on as they have been doing of late years, a white man will have no rights which a negro is bound to respect.

White men, let us rally in solid column to dislodge this "party of great moral ideas" which seeks to govern white men by the votes of black men. —*Valley Spirit.*

IF the conduct of the negro at the late election in New York city is to be the measure of his future action in regard to the exercise of the elective franchise, the Fifteenth Amendment has, indeed, inflicted a terrible curse upon the country. That election was the first at which black men participated in an organized capacity. Then and there they appeared the equal of white men at the polls. And certainly the negro proved an adept in stuffing ballot-boxes; personating his dead fellow-citizens and making himself useful to his political partisans by every species of fraud and corruption. At an early hour, he enrolled himself among the vote early and vote often patriots, and throughout the day continued to do battle for his party by repeating his vote under feigned names at every polling place where such action was possible. In one ward eleven hundred negroes recorded twenty-eight hundred votes, completely outstripping the white swindlers, and winning for themselves the undying gratitude of the Radical party and the everlasting disgust of all honest men. This is the use the Radicals mean to make of the negroes. They are instructed in secret lodges by white men, and the venal and unprincipled of their own race, and driven to the polls like a herd of cattle. The scenes enacted in New York will be repeated in all parts of the Union. And what will be the result? The negroes will be debased and degraded, and the elective franchise soiled, polluted, and turned into an article of merchandize. Such are the fruits of the system, to inaugurate which, white men have been butchered, our government wrenched from its ancient constitutional moorings, and the growth, prosperity and happiness of the nation retarded to a most alarming degree.—*Age.*

EIGHTY THOUSAND DEMOCRATIC MAJORITY.—The Albany *Argus* claims eighty thousand majority for the Democratic ticket at the last election. One of the most remarkable political somersaults was that in Orleans county, the lifelong residence of the Democratic candidate for Chief Justice of the Court of Appeals, Sanford E. Church. At the election last fall Seigle, the Republican candidate for Secretary of State, carried the county by nine hundred and forty-three majority. At the last election Judge Church swept every town, with but one slight exception, and received seven hundred and eighty-six majority. This is one of the most remarkable changes on the political record—a perfect "wheel about and turn about." It shows that a man can be a prophet in his own country. If the rural Democracy keep on in this go-ahead way they will be able to swing the State without the aid of the metropolitan Democracy.—*New York Herald.*

A NEGRO ULTIMATUM.

A few negroes dignified by the name of Delegates to the "Colored State Equal Rights League," met at Harrisburg, on the 4th, and issued an *ultimatum* to the white men of this State. In the first place, the negroes are to have "intervisitation" with the whites. "Intervisitation" is good, and will apply to the fraternal meetings enjoyed by our Republican neighbors at their new head quarters in the negro suburbs. In the next place, there must be an improvement in our common school system, so far as the privileges of negroes are concerned. Their children must be admitted into all grades and departments of the public schools on an equal footing with children of white parents. Again, all "manufactories and places for the instruction and employment of persons in the mechanical trades and arts" are to be opened to negroes. "Mechanics' Unions" are also to open their doors to negroes, and allow them equal privileges with white men.

These are the claims put forth by a few negro politicians in the pay of the Radical leaders in this State. And they will be endorsed by the men who rule and control that party. They will force negroes into the public schools and all the places named, if the negro vote can be secured in that manner. But what response will the rank and file of the Radical army send back to these impudent demands of negro traders? Will they agree that negro children shall push their little boys and girls from our school houses? Are they ready to be displaced in factories, workshops and all other places of industry by negroes, who, having no ambition, will work for a miserable compensation? Are the founders and members of "Mechanics' Unions" prepared to accept negroes as members? If not, they must protest in a proper manner against the enfranchizing process. The "Ring" will take the negro. Will white men in the Radical party do likewise?—*Jeffersonian.*

AFTER THE NEGRO VOTE.

The Chambersburg *Spirit* says: Some weeks ago we stated that immediately upon the issuing of the proclamation announcing the ratification of the Fifteenth Amendment, John Cessna began a correspondence with the colored men of Chambersburg with a view to procuring their votes. We now have the pleasure of laying before our readers one of the letters since addressed to a colored man in this Borough, by the Honorable John's Secretary. It seems that the member from the 16th Congressional District is able to keep a clerk for the simple purpose of conducting his correspondence with the negroes and "sending them all the speeches and documents he may have." Cessna wants a list of these voters for the purpose of calculating his chances for re-election. We tell him now that if he gets 800 negro votes in this Congressional District, it will not save him. He ought to strain his ear and listen to the mutterings of discontent that are coming up from the throats of white men who voted for him before, but who have now joined the "white men's party," and, of course, intend to tomahawk him next time. Let him get 500 negro votes in Franklin county, if he can, and we will still beat him 300 here without any trouble. Every day white men are declaring their purpose to quit the rotten hulk of Radicalism. These men will vote the straight Democratic ticket. But these are not all that will strike at John Cessna. Go where you will in this county you can hardly meet a man who speaks well of him. He is as deeply despised as any man within the range of our acquaintance. How well he will run among the Republicans can be predicted from this state of facts. But here is the letter:

WASHINGTON, May 2, 1870.

Dear Sir: This package of speeches is from the Hon. Jno. Cessna, who desires that you distribute them among the colored voters in Chambersburg. They are the speeches of Hon. Mr. Revels, the U. S. Senator from Miss., the only colored man who has held that very high and exalted position.

Mr. Cessna requests that you have a list of all the colored voters in Chambersburg made out and sent to him, as he wants to send them all the speeches and documents he may have. Please attend to this at once and send on as many names as possible, and direct your letters to Hon. Jno. Cessna, Washington, D. C.

H. E. WEAVER.

THE Democratic majority in the State of New York is 80,000! This is another emphatic condemnation of the tyrannical and ruinous course of the Radical party. First, after the adoption of the Fifteenth Amendment, came the little State of Connecticut protesting against that outrage, and now the Empire State speaks the same language in tones that cannot fail to be heard in every nook and corner in the land. The New York *Sun* boldly proclaimed before hand that the administration of President Grant was on trial, and that the result was to be regarded as an emphatic approval or condemnation. The people of the greatest State in the country have spoken, and the verdict is one of decided disapproval. The negro vote was cast for the Radical candidates, but it proved to be a source of weakness rather than of strength. So it will be elsewhere in the North.

THE New York *Star* says: "Every election shows that the power of the Democratic party in New York is increasing, and the majorities becoming more formidable each year. The Republicans thought the Democrats cheated and 'repeated,' and enacted a Registry law, but they could not keep down the honest Democratic vote. This year the hours for voting were less, and two or three thousand negro Republicans were thrown in. The result is that the Republican vote is less than ever, and the Democrats make a clean sweep of the city and State. For the next two weeks the Republican papers will howl and shout 'fraud' because the vote of the Democracy has increased. There may be a few cases of 'repeating' on the part of both Democrats and Republicans, but the vote of the former, we believe, honestly increases every year."

THE Radicals say, "let the *Dutch* go, we have the negroes."

The Radicals say, "let the *Irish* go, we have the negroes."

White men—naturalized citizens, and Americans born—let us join hands to defeat these negro-worshippers. Let white men rule America.

THE Fenians are moving on Canada. Fighting on the frontier is reported, with the loss of 12 Fenians killed and missing. Gen. O'Neill has been arrested by the United States authorities, which has greatly demoralized the Fenians.

90,000 MAJORITY!

Better and Better from New York—The Great Democratic Victory.

NEW YORK, May 24th.—The Democratic majority in the State is claimed to be ninety thousand, or thirty thousand without New York city. The Democracy have forty-four of the sixty counties and the Republicans a small majority in sixteen. The change is greatest in the hitherto strongest Republican counties.

THAT'S THE TALK.

The following is an extract from a speech recently delivered in Indianapolis, by Congressman Daniel L. Voorhees, on the question of negro suffrage. These outspoken sentiments, coming from so able and fearless a champion of Democracy, will be read with interest by all those who cling to a White Man's Party:

I believe, as I have ever believed, that the admixture of the races is ever fraught with evils and errors to both, and with blessings to none. All history tells this sad, calamitous story, and sustained Gov. Morton when he occupied the same position, as I do now. There is not a spot of earth beneath the sun where the experiment has been tried that has not been blighted, with ashes and blood, and always with a deterioration of both races, and acceleration of all the vices of mongrels, and a backward flow of the tide of civilization. Nor will we in the future years escape this revolting doom if we persist in the attempt to absorb in the body politic three millions of a degraded and inferior race.

The wretched results may come slowly here in Indiana, but they will as surely come as the foot prints of time continue to advance into the unknown years. There are some, perhaps, who desire the votes of this people. I do not. I would treat them in all kindness, as I ever have, but the white man of my own great race—great in all the world's history, great in war, great in science, letters, free government and Christian progress, can better control the destinies of this proud commonwealth without their aid, and into their hands I cast my fate, *and with a white man's party I will stand or fall.* Already the vagrant negroes, the black lazaroni of Kentucky and other Southern regions, are in transportation to Indiana.

Already it is loudly announced that their votes are to encompass my defeat if I am again a candidate. It will be for the laborers of the State—the white men who till the soil, the mechanics in the shops—to determine whether they desire this population in their midst. It will be for the oppressed workmen of every avocation and calling, who have nothing left save civil rights of citizenship, to decide whether they wish to share them equally with the African. I will appeal to them whether Indiana, a border State, shall be overrun with the refuse black elements of the South. I will appeal to them whether they will encourage the presence of those elements in their fields, their workshops, and at their firesides. Nor do I fear the result.

The people will be true to the rights of their State, true to the wise and safe traditions of their fathers, true to their own lofty blood and history, true to the purity of their industrial pursuits and social organization, and true to their highest type of civilization, which springs from a separation of races. And if bad and designing men are flooding Indiana with a negro population which of right does not belong here—if this nefarious scheme is at work to carry elections, I warn and implore the agents of this outrage to desist.

THE crushing blow dealt Radicalism in New York on Tuesday week, is keenly felt by the leaders of that party in every quarter. In speaking of the result the New York *Sun* says:

"The Republican party in this city and State is completely demoralized; and if it cannot be radically reorganized, it might as well be disbanded. Its present forlorn condition is due in great part to the utter failure of the national administration to redeem the pledges wherewith it obtained power, and in part to the incapacity and corruption of its local leaders."

The New York *Standard*, in announcing the defeat, remarks:

"The Republican leaders have squandered away their power in New York State. This is the meaning of the recent election, and the party might as well look it squarely in the face."

In commenting on the cause of the defeat, and the means of saving the party from further disaster, the *Standard* says:

"There is but one way to do it. The men who led the party into disaster must be removed from command. The party needs a leader. If it is willing to fight like a flock of sheep, it must expect even more disastrous defeats."

Indian Vocalists.—The celebrated Indian Vocalists, under the direction of Prof. Flanders, announce that they will visit Gettysburg again, and give a Concert in Agricultural Hall, on Saturday evening next, 28th instant. The satisfaction they gave on their previous visit ought to insure them another full house, and nothing will be spared to deserve it. The entertainment is not only of a novel, but very high character, and cannot but doubly repay all who may give it their patronage. It

TOWN, COUNTY AND SURROUNDING COUNTIES.

Thanks.—Hon. C. M. Duncan has again placed us under obligations for legislative documents.

Resigned.—Rev. S. N. Callender has resigned his position as Pastor of the Reformed Church at Greencastle on account of ill-health.

Dedicated.—The new Masonic Hall at Carlisle was dedicated on Tuesday. The attendance was large, the parade grand, and the ceremonies impressive—altogether a complete success.

Argued.—The application for the sale of the Gettysburg Railroad was argued before the Supreme Court at Harrisburg on Tuesday. Mr. North for the sale, and Mr. Wills against.

Caterpillars.—Now is the time to commence the destruction of those pests to fruit trees, the caterpillars. Every farmer should thus occasionally devote an hour or two to his orchard.

Intends to Remove.—Mr. Jacob R. Welsh, of Waynesboro', has sold his store to Mr. D. Snively Smith, and intends removing shortly to Montgomery co., Md., where he has purchased a tract of land.

Deeds.—We have just printed a large lot of Blank Deeds, of different kinds, with clear type, upon the best paper ever used in this office for the purpose. A blank being left for the name of the county, they will answer for use in any county in the State.

Gapes in Chickens can be cured, says Mr. Burnell, of Bridgeport, Conn., by "mixing in a tablespoonful of soft soap all the meal it will hold, and giving to a brood of ten or twelve chickens." Mr. B. adds: "All that die from taking it, or all that die from the gapes after taking it, I will pay for at any expense." Let some of our readers try it.

College Honors.—The Faculty of Pennsylvania College, on Wednesday, announced the honors to the class to graduate the 30th of the coming June, as follows: First honor to J. A. Himes, of McAllisterville, Pa., (Latin Salutatory;) second honor to John L. Kendlehart, Gettysburg; third honor to B. J. Hickman, Bollington, Va.; and fourth honor to W. A. List, Wheeling, W. Va., (Valedictory.) The graduating class was examined on Tuesday and Wednesday, and will be given five weeks to prepare for Commencement. It numbers eighteen.

Court.—At the recent Court of Common Pleas, the jury in the case of Stambaugh vs. Shireman and Kline rendered a verdict for the defendant John Kline, Shireman not having been served with process.

In the Mechanics' Lien case, Jacob Reiley, use of David Wills, vs. The Trustees of Penn'a. College, owners, and John R. Turner, contractor, the jury found for the plaintiff for $96 88.

In the case of Cornelius Dougherty vs. George Dittenhafer, motion to set aside appraisement under the $300 act, after argument, the Court dismissed the motion.

Ran Off.—A horse belonging to Ex-Sheriff Philip Hann, (now of Clairveux, near Emmittsburg,) ran away with a buggy from the front of the Keystone House, in this place, on Tuesday. The vehicle, striking the sign post of Philip Winter, broke it down. Then taking the pavement, the horse tore along at a fearful rate, the buggy, on one side, at his heels—passing Buehler's drug store, between the large show window and the tree, (without smashing the one or injuring the other,) and on to Cress's corner, where he was caught and secured. The vehicle was badly broken; the horse escaped unhurt.

Bridge Contract.—The Commissioners of this county, on Tuesday last, awarded the contract for the building of an Iron Bridge across Opossum creek, at Henry Eppelman's mill, to Samuel Stouffer, of York—the superstructure at $18 75 per foot, and the masonry at $2 49 per perch. The bridge is to be 95 feet span, with a pier in the centre, and will cost, when complete in every part, about $1,800. There were seven bids—two from Pittsburg, two from York, two from Chambersburg, and one from Philadelphia.

These bridges are built of wrought and cast iron, and are said to be very durable. In many counties they are taking the places of wooden bridges entirely.

Broke Jail—$100 Reward.—On Saturday night or Sunday morning, Jacob Charles, alias Daniel Conrad, confined in our county jail under indictment for the burglary at Mr. Schick's store, made his escape.

Sheriff Klunk, regarding him as a slippery chap, had him hobbled, with the chain fastened to the floor. Charles, either with a file or saw, parted the chain, and reaching through the small wicket in the door down to the lock, on the outside, by some means opened it; and when out in the hall, unlocked another cell, in the rear of the prison, and in that quarried through the brick wall a hole large enough to admit of his egress. Once in the yard, he most likely got upon the roof of the prison, from that to the roof of the house, then down upon the yard wall, and leaped to the ground on the outside. This is the generally accepted theory of the escape, and we suppose it in the main correct. That Charles had outside aid is very evident. There are foot prints in the gardens on the upper and lower sides of the yard wall made by the same person, and the outside of the prison walls (brick) show many marks made with an iron instrument, as though to find a weak spot, or to attract Charles's attention, or both. Altogether, the affair looks like the work of experts in the jail-breaking line.

Sheriff Klunk offers a reward of $100 for the arrest and return of Charles, or Conrad, whatever his name may be. He is about 25 years old, five feet five or six inches high, stoutly built, with dark hair and dark eyes; and had on when he left a blue cloth sack coat, black pants and vest, a blue navy cap, and a pair of fine boots.

Detective Rouzer started in search of Charles on Sunday morning, and we hope to hear of his re-arrest before long. No doubt guilty of the burglary charged against him, there is now an additional crime demanding his punishment.

—On Sunday night, about 10 o'clock, a person corresponding with the above description, passed through the toll-gate at New Oxford, telling the keeper, in conversation, that he was on his way to York. Detective Rouzer is on his trail.

Class-Day Exercises.—The Exercises promised by the Graduating Class of Pennsylvania College, came off, in the College Campus, on Wednesday evening, with decided eclat. The attendance of ladies and gentlemen was very large. The "beauty and fashion" of the town and vicinity is rarely so fully out as it was on this occasion.

The front of the College edifice was tastefully decorated with festoons of evergreens and flowers, and Chinese lanterns of various styles and hues added a touch of pleasing contrast to the dense foliage now forming so grateful a feature of the Campus. Comfortable seats for a large number of persons were provided immediately in front of the College, where the speaking took place. The programme published in our last was carried out.

The Salutatory, in the shape of a Poem, by Mr. Himes, was a production of rare merit in its way, and won a universal verdict of admiration. The History of the Class, by Mr. Reimensnyder, was also a good thing, racy and pointed, and of course frequently "brought down the house." Mr. Hickman, in the Prophecy, likewise acquitted himself with credit, as was testified by the audience throughout its delivery.

At its conclusion, the graduates gathered around the newly-planted Class Tree, on the south side of the Campus, and sang with fine effect a farewell ode—President Valentine pronouncing the benediction.

Meantime night had set in—the College was beautifully illuminated, and the lanterns in the grounds lighted, whilst Roman candles puffed and rockets bursted in the air. Then came the Promenade Concert. The Gettysburg Band (now hard to beat) took position on the College portico, and discoursed appropriate music for several hours, whilst the many walks and arbors adorning the Campus were alive with "gay and happy" promenaders. All in all, the Class of '70 have reason to be more than satisfied with their Class-Day Exercises.

Re-Dedicated.—The Philomathean Hall in Pennsylvania College having been re-fitted with new carpeting, furniture, window shades and curtains, and the walls frescoed, (at considerable expense,) the Society re-dedicated it on Saturday afternoon week. The exercises, we understand, were of a very pleasant and interesting character, and the young gentlemen put forward as the representatives of the Society for the occasion acquitted themselves with much credit. The programme embraced: Salutatory, by J. L. Hill, Jr.; Declamation, "The good time coming," by D. M. Moser, and "The maniac," by S. Mc. Swope; Essay, "The creative power of man," by T. Boyd; Orations, "Human effort imperfect," by G. D. Staley, and "Educating Influence of the Beautiful," by B. Kurtz; Essay, "The ancient idea of Fate," by J. A. Himes; Debate, "Do the signs of the times indicate the overthrow of our Government?" Affirmative, S. Palmer and J. S. Detweiler; negative, D. S. Koser and C. M. Michael. Dr. Stever opened and Dr. Hay closed with prayer—and the exercises were interspersed with music. The affair will constitute an epoch in the history of the Society.

Bitten by a Mad Dog.—We learn that a lad aged about 15 years, son of Mr. Jacob Lawyer, residing in West Manheim township, a few miles South of this place, was bitten by a mad dog on Sunday, the 8th inst. He was attacked by the dog, (a strange one,) whilst walking along the road near his father's house, and was badly bitten on the hand and leg by the rabid animal. He was brought to town immediately after the occurrence, and A. G. Schmidt, druggist, administered to him Dr. Stoey's celebrated remedy for the cure of the bite of a mad dog, and thus far he has manifested none of the symptoms peculiar to Hydrophobia, and it is thought the remedy will prove effectual.

It is said that the rabid animal succeeded in biting a number of dogs and a sheep, in the same township, shortly after biting young Lawyer, and although vigorous pursuit was made of him, effected his escape. Hydrophobia appears to be prevailing to an alarming extent among the dogs this season, and the greatest vigilance should be exercised by everybody to avoid the horrors of this dreadful disease.—*Hanover Spectator.*

Religious.—The Tunkers, or German Baptists, composing the Middle Conference, extending from the Susquehannah to the Allegheny Mountains, commenced their annual meeting on Saturday last, (and which closed on Sunday evening,) at Mummert's Meeting House, two miles North of Abbottstown. The concourse of people in attendance on Saturday night and Sunday was very large.—*Ibid.*

A Ferocious Rat.—We are informed that on last Sabbath, whilst the infant of Mr. Tempest Graef, of Abbottstown, lay sleeping in its cradle, it was attacked by a large and ferocious rat. The screams of the child attracted the attention of the family, when it was discovered that the animal had bitten the child in several places on its body. *Ibid.*

A Child nearly Killed.—On Tuesday afternoon, while the train was proceeding from this place to Baltimore, two small children of Mr. Tate were seen on the track between Princess and New streets. The engineer whistled and checked the train, but one of the children, only three years old, remained stationary, unconscious of danger. The cow-catcher pushed the child off the track, bruising its head considerably, and, we are told, loosening some of the teeth. A few feet further on the train came to a halt. The cars must have been almost stopped when the child was struck, otherwise there would have been instantaneous death.—*York Penn.*

Emmittsburg Election.—The annual election for Corporation Officers took place on the 2d inst. As usual no regular nominations were made by either party, and very little interest was taken in the election, which passed off quietly, with the following result: Martin Sweeney, (Rep.) Burgess; J. Witherow, Jacob S. Gelwicks and Isaac Hyder, (Reps.) Lewis M. Motter, Geo. W. Rowe and James A. Elder, (Dems.) Commissioners; O. A. Horner, Pres't. Fire Company; Bennet J. Tyson, V. Pres't.; N. Rowe, 1st Engineer; James T. Hays, 2d Engineer; Robert H. Gelwicks, Sec'y.

Improvements.—Mr. James Reaver is building a bank barn in Mountjoy township. Mr. Solomon Miller, same township, will build one after harvest. Mr. Samuel Baker, same township, is making considerable improvements upon his dwelling house.

Classis.—Zion's Classis of the Reformed church met in annual session at Jefferson, York county, on Friday evening last. The meeting was unusually full, every member but one being in attendance. The opening sermon was preached by the retiring President, Rev. Ephraim Keeter, of Carlisle. Classis then organized by electing Rev. W. F. Colliflower, of Newport, Perry county, President; Rev. W. R. H. Deatrich, of this place, Stated Clerk; and Elder Wm. A. Will, of York, Treasurer.

The business transacted was entirely of a current nature, and exhibited a prosperous condition of the church within the classical bounds. The sessions were harmonious and pleasant, and much interest was manifested in them by the community.

Licentiate Aaron Spangler, of York county, having received and accepted a call to the York Springs charge, Revs. Jacob Ziegler, of York, W. F. P. Davis, of New Oxford, and W. R. H. Deatrich, of Gettysburg, were appointed the committee to ordain and install him.

Classis adjourned on Monday night, at 10 o'clock—to meet the third Friday in May, 1871, at Marysville, Perry county.

I. O. O. F.—At the recent session of the Grand Lodge of Odd Fellows of this State, held in Philadelphia, the following officers were elected and installed for the ensuing term:

M. W. G. Master, John B. Springer, of No. 127, Philadelphia; R. W. D. G. Master, Alfred Slack, of No. 211, Allegheny City; R. W. G. Warden, Wm. Stedman, of No. 113, Philadelphia; R. W. G. Secretary, Jas. B. Nicholson, of No. 100, Philadelphia; R. W. G. Treasurer, M. Richards Muckle, of No. 46, Philadelphia; R. W. G. R. G. L. U. S., Robt. A. Lamberton, of No. 160, Harrisburg.

Representatives to the Grand Lodge were received and confirmed, and 211 new members admitted. The following statistics of the Order in this State, for the year ending March, 1870, were submitted:

Number of initiations, 9749; reinstated, 751; admitted on card, 1326; withdrawn by card, 1738; suspended, 3637; expelled, 117; deceased, 639; rejected, 1426; number of members at present, 75,605; net increase since last report, 5797; number of Lodges, 601; increase of lodges during the year, 52; number of Rebekah Degree Lodges instituted during the year, 34.

Relief Report.—Number of brothers relieved, 7115; number of widowed families relieved, 895; amount paid for relief of brothers, $187,503 31; amount paid for relief of families, $15,806 81; amount paid for education of orphans, $930 87; amount paid for burying the dead, $46,533 82; total amount expended for relief, $250,776 84; increased amount of relief over the previous year, $25,073 36; total amount of annual receipts, $830,799 49; increase of annual receipts over previous year, $107,820 43.

At the session of the Grand Encampment of the Order the following officers were elected for the ensuing term:

- M. W. Grand Patriarch, James A. Sholes, Pittsburg.
- M. E. G. High Priest, James Bingham, Philadelphia.
- R. W. G. S. Warden, Augustus Phaff, Philadelphia.
- R. W. G. J. Warden, James McGahey, Philadelphia.
- R. W. G. Scribe, James B. Nicholson, Philadelphia.
- R. W. G. Treasurer, John S. Heiss, Philadelphia.
- W. G. I. Sentinel, John Curtis, Philadelphia.
- W. G. O. Sentinel, Geo. C. Hoster, Philadelphia.
- R. W. G. R. G. L. U. S., C. N. Hickoch, Bedford.

From the reports submitted to the Grand Encampment it is shown that there are 160 subordinate encampments in the State; during the past year 13 new encampments have been organized, and over 1,200 new members added to this branch of the order.

In this age of scepticism, facts are required to inspire confidence in the minds of the people; but, with good indorsers, they are willing to test any article claiming extraordinary merit. The proprietors of Hall's Vegetable Sicilian Hair Renewer offer the following indorsement of the merits claimed by them for their preparation, by the Pittsburg, Pa., "Christian Advocate," viz., "The public have so often been deceived by the use of worthless preparations for the hair, that an article of this kind to gain their favor and secure their patronage, must possess *real merit.* We are glad to assure our readers that Hall's Vegetable Sicilian Hair Renewer is meeting with the success which its merits so justly deserve; and we have reliable evidence, that it will perform all that is claimed for it, in restoring gray hair to its natural color, and as a permanent dressing is unsurpassed. Alabama Claims.—We are informed that the most persistent and unyielding of the private citizens who have claims vs. the British Government are Dr. J. C. Ayer & Co., of Lowell, Mass., the manufacturers of medicines. They will consent to nothing less than that their demand for medicines destroyed by the British pirates shall be paid in gold and in dollars to the last cent. They are emboldened by the fact that the destruction of their goods by the English in China and elsewhere (for where is not that troublesome nation trampling upon somebody?) have hitherto been paid in full, and they now say that they shall be. They however propose this compromise:—Give us Canada and then we will call it even, because we can then send our remedies there without duty.—[Washington News. It

Scrofula Cured by Brandreth's Pills.

Brandreth's Pills penetrate the whole mass of blood, causing the expulsion of impurities. The body feels relieved from a single dose, what then may be expected from twenty? By continuing their use, the whole of the blood in time, becomes purified, and the body reconstructed from good material, and a new lease of life secured.

Sing Sing, March 25, 1868.

My Dear Sir—My daughter Alice, fifteen years old, has been completely cured of that horrible disease, Scrofula, which for years rendered life a torment; after all medicines and many physicians had been tried, and failed, I commenced giving her your pills. She took them almost every day for three months, constantly improving. She has now entirely recovered. Yours truly,

How to Cure Consumption.

THE PHILOSOPHY OF DR. SCHENCK'S GREAT MEDICINES. Will people never learn to know that a diseased liver and stomach necessarily disease the entire system? The plainest principles of common sense teach this, and yet there are hundreds who ridicule the idea, and continue in the course which almost inevitably brings them prematurely to the grave. Living as the majority of people do, at complete variance with the laws of nature, it must be apparent to all that, sooner or later, nature will revenge herself. Hence we find that persons who indulge to excess in the use of very rich or indigestible food or intoxicating drinks, invariably pay a heavy penalty in the end. The stomach becomes disordered and refuses to act, the liver fails to perform its functions, dyspepsia and its attendant evils follow, and still the suffering individuals persist in clinging to the thoroughly exploded ideas of the past. Dr. SCHENCK'S medicines are recommended to all such. They bring sure and certain relief wherever they are used as directed, and all that is necessary to establish their reputation with every intelligent man or woman in the land is a fair and impartial trial of them. Let those who are skeptical on this point, and who have permitted interested persons to prejudice them against these now celebrated remedies for consumption, escape their prejudices, and be governed by the principles of reason and common sense. If the system is disordered, depend upon it, in nine cases out of ten the disorder will be found in the stomach and liver. To cleanse and invigorate the stomach and to stimulate the liver to healthy action, use

SCHENCK'S MANDRAKE PILLS. The daily increasing demand for these pills is the best evidence of their value. Thousands upon thousands of boxes are sold daily. Why? Simply because they act promptly and efficiently. Invalids who may not find it convenient to call on Dr. SCHENCK in person are informed that full and complete directions for use accompany each package of the

MANDRAKE PILLS, PULMONIC SYRUP AND SEAWEED TONIC. These medicines will cure consumption unless the lungs are so far gone that the patient is entirely beyond the reach of medical relief.

It may be asked by those who are not familiar with the virtues of these great remedies, "How do Dr. SCHENCK'S medicines effect their wonderful cures of consumption?"

The answer is a simple one. They begin their work of restoration by bringing the stomach, liver and bowels into an active, healthy condition. It is food that cures this formidable disease. SCHENCK'S MANDRAKE PILLS act on the liver and stomach, promoting healthy secretion, and removing the bile and slime which have resulted from the inactive or torpid condition of these organs, and of the system generally. This sluggish state of the body, and the consequent accumulation of the unhealthy substances named, prevent the proper digestion of food, and, as a natural consequence, create disease, which results in prostration and finally in death.

SCHENCK'S PULMONIC SYRUP and SEAWEED TONIC, when taken regularly, mingle with the food, aid the digestive organs, [illegible] good blood, and as a natural consequence, give flesh and strength to the patient. Let the faculty say what it may, this is the only true cure for consumption. Experience has proved it beyond the shadow of a doubt, and thousands are to-day alive and well who a few years since were regarded as hopeless cases, but who were induced to try Dr. SCHENCK'S remedies, and were restored to permanent health by their use.

One of the first steps the physician should take with consumptive patients is to invigorate the system. Now how is this to be done? Certainly not by giving medicines that exhaust and enervate—medicines that impair instead of improve the functions of the digestive organs. Doctor SCHENCK'S medicines cleanse the stomach and bowels of all substances which are calculated to irritate or weaken them. They create an appetite, promote healthful digestion, make good blood, and, as a consequence, they give strength to the entire system, and more especially those parts which are diseased. If this cannot be done, then the case must be regarded as a hopeless one.

If the physician finds it impossible to make a patient feel hungry, if the diseased person cannot partake of good nourishing food and properly digest it, he cannot gain in flesh and strength; and it is equally impossible to bring a patient to this condition so long as the liver is burdened with diseased bile, and the stomach is loaded with unhealthy slime.

Almost the first request made to the physician by a consumptive patient is that he will prescribe medicines that will remove or allay the cough, night sweats and chills, which are the sure attendants on consumption. But this should not be done, as the cough is only an effort of nature to relieve itself, and the night sweats and chills are caused by the diseased lungs. The remedies ordinarily prescribed do more harm than good. They impair the functions of the stomach, impede healthy digestion, and aggravate rather than cure the disease.

There is, after all, nothing like facts with which to substantiate a position, and it is upon facts that Dr. SCHENCK relies. Nearly all who have taken his medicines in accordance with his directions have not only been cured of consumption, but, from the fact that these medicines act with wonderful power upon the digestive organs, patients thus cured speedily gain flesh. Cleansing the system of impurities, they lay the foundation for a solid, substantial structure. Restoring these organs to health, they create an appetite. The food is properly assimilated; the quantity of blood is not only increased, but is made rich and strong, and in the face of such a condition of the system all disease must be banished.

Full directions accompany each of the medicines, so that it is not absolutely necessary that patients should see Dr. SCHENCK personally, unless they desire to have their lungs examined. For this purpose he is at his principal office, No. 15 North Sixth St., corner of Commerce, Philadelphia, every Saturday, from 9 A. M. till 3 P. M.

Advice is given without charge, but for a thorough examination with the Respirometer the charge is $5.

Price of the Pulmonic Syrup and Seaweed Tonic each, $1 50 per bottle, or $7 50 a half dozen. Mandrake Pills 25 cents a box. For sale by all druggists.

McCORMICK

Mowers and Reapers!

ADVANCE! PRIZE! RELIABLE!

THE firm of C. H. McCormick & Bro., Chicago, manufacturers of Reapers and Mowers, offer great improvements for 1870, in their Simply Constructed, Light Draft, Accurate Raking, Grain-Saving, Rapid Running and Clean Cutting Machines, [illegible] trial with any other.

Their manufacturing arrangements are such this year that they can meet the wants of every farmer with *three* varieties of Machines, viz:

I. THE "PRIZE MOWER," cutting four feet wide, a two-wheeled machine, used only for mowing.

II. THE "RELIABLE." A one-wheeled self-raking Reaper, cutting full six feet wide. It is also used as a Mower with considerable success in tame grasses, though its special work is reaping.

III. THE "ADVANCE." A combined two wheeled machine, *reaping five feet wide*, with a serrated sickle, and having a separate cutter bar for mowing, four feet wide, with a smooth edged knife. *This is the leading machine.* It embraces *every meritorious feature of the Ball Mower* and all the essential features of the Reliable Self Raker, whilst it is the simplest, lightest and most efficient combined machine in the market. The firm believe that every body will want a McCormick after their improved machines are seen.

JESSE EPPELMAN is the McCormick Agent for Adams and York counties. His address is at Littlestown, Adams county, Pa. His motto is, one price, and strictly honorable dealing with all. To keep up with the age, farmers must buy the improved McCormick machines.

TO PHYSICIANS.

NEW YORK, August 15th, 1868.

Allow me to call your attention to my PREPARATION OF COMPOUND EXTRACT BUCHU. The component parts are BUCHU, LONG LEAF, CUBEBS, JUNIPER BERRIES.

MODE OF PREPARATION.—Buchu, in vacuo. Juniper Berries, by distillation, to form a fine gin. Cubebs extracted by displacement with spirits obtained from Juniper Berries; very little sugar is used, and a small proportion of spirit. It is more palatable than any now in use.

Buchu, as prepared by Druggists, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this (its active principle), leaving a dark and glutinous decoction. Mine is the color of ingredients. The Buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection, it will be found not to be a Tincture, as made in Pharmacopœa, nor is it a Syrup—and therefore can be used in cases where fever or inflammation exist. In this, you have the knowledge of the ingredients and the mode of preparation.

Hoping that you will favor it with a trial, and that upon inspection it will meet with your approbation,

With a feeling of confidence,
I am very respectfully,
H. T. HELMBOLD,
Chemist and Druggist of 16 Years' Experience.

[From the Largest Manufacturing Chemists in the World.]

NOVEMBER 4, 1854.

I am acquainted with Mr. H. T. Helmbold; he occupied the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise.

WILLIAM WEIGHTMAN,
Firm of Powers & Weightman, Manufacturing Chemists, Ninth and Brown Sts., Philadelphia.

HELMBOLD'S FLUID EXTRACT BUCHU, for weakness arising from indiscretion. The exhausted powers of Nature which are accompanied by so many alarming symptoms, among which will be found Indisposition to Exertion, Loss of Memory, Wakefulness, Horror of Disease or Forebodings of Evil; in fact, Universal Lassitude, Prostration and inability to enter into the enjoyments of society.

The constitution once affected with Organic Weakness, requires the aid of medicine to strengthen and invigorate the system, which HELMBOLD'S EXTRACT BUCHU invariably does. If no treatment is submitted to, Consumption or Insanity ensues.

HELMBOLD'S FLUID EXTRACT OF BUCHU, in affections peculiar to Females, is unequaled by any other preparation, as in Chlorosis or Retention, Painfulness or Suppression of Customary Evacuations, Ulcerated or Schirrus State of the Uterus, and all complaints incident to the sex, or the decline or change of life.

HELMBOLD'S FLUID EXTRACT BUCHU AND IMPROVED ROSE WASH will radically exterminate from the system diseases arising from habits of dissipation, at little expense, little or no change in diet, no inconvenience or exposure; completely superseding those unpleasant and dangerous remedies, Copaiva and Mercury, in all these diseases.

USE HELMBOLD'S FLUID EXTRACT BUCHU in all diseases of these organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing. It is pleasant in taste and odor, "immediate" in action, and more strengthening than any of the preparations of Bark or Iron.

Those suffering from broken-down or delicate constitutions, procure the remedy at once.

The reader must be aware that, however slight may be the attack of the above diseases, it is certain to affect the bodily health and mental powers.

All the above diseases require the aid of a Diuretic. HELMBOLD'S EXTRACT BUCHU is the great Diuretic.

Sold by Druggists everywhere. Price—$1.25 per bottle, or 6 bottles for $6.50. Delivered to any address. Describe the symptoms in all communications.

COLLECTION OF TAXES.

THE following Acts of Assembly are published for general information:

AN ACT

To authorize the more prompt collection of taxes in the county of York.

WHEREAS, The act entitled "An Act imposing additional taxes for State purposes," approved the thirteenth day of April, Anno Domini one thousand eight hundred and sixty-four, which said act, amongst other matters, provides that the auditor general shall add five per centum penalty to all counties on all State taxes remaining unpaid on the first day of August of each year, has been found to have a salutary effect.

Whereas, It is equally desirable to levy the county taxes, as well as the State taxes, required to be paid by said county, promptly collected, as well to meet the expenses of the county, as to avoid the penalty which might under said act be imposed by the auditor general; therefore,

SECTION 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same, That hereafter it shall be lawful for the county commissioners, of the county of York, to add five per centum penalty to the state and county taxes of each and every taxable of said county remaining unpaid on the fifteenth day of July, Anno Domini one thousand eight hundred and sixty-six, and of each year thereafter, and collect the same, in the same manner in which state and county taxes are now recovered and collected in said county; and that all acts of assembly inconsistent with the provisions of this act, be and the same are hereby repealed.

JAMES R. KELLY,
Speaker of the House of Representatives.
DAVID FLEMING,
Speaker of the Senate.

APPROVED—The eleventh day of April, Anno Domini one thousand eight hundred and sixty-six.

A. G. CURTIN.

AN ACT

To authorize the more prompt collection of taxes in the county of Adams.

SECTION 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same, That the act of assembly approved the eleventh day of April, Anno Domini one thousand eight hundred and sixty-six, to authorize the more prompt collection of taxes in the county of York, be and the same is hereby extended to the county of Adams in like manner as if the same had been especially recited in this act.

B. B. STRANG,
Speaker of the House of Representatives.
CHARLES H. STINSON,
Speaker of the Senate.

APPROVED—The sixteenth day of April, Anno Domini one thousand eight hundred and seventy.

JNO. W. GEARY.

The Tax Collectors and Tax Payers of Adams county are expected to comply with the provisions of the above Acts of Assembly.

JACOB LOTT,
MOSES HARTMAN,

FAHRNEY'S BLOOD SEARCHER,

OR PANACEA.

THIS well known and popular medicine was formerly put up in packages by Dr. Fahrney, near Boonsboro, Md., but is now put up in a liquid form, and is highly commended for all chronic or long standing Diseases. Hundreds of testimonials could be given, but the following will suffice:

"Dr. P. Fahrney's Blood Searcher or Panacea, is a medicine that we can recommend to those who are afflicted, having used it in our own family and furnished our friends with the article. We can, therefore, from experience say that it is a *medicine* possessing rare medicinal properties. Being a mild purgative, it is well to keep it always in the family where there are children or those subject to colds or other sickness. It is compounded from medicinal Roots, Leaves, Barks, Seeds, and Berries, which are said to be entirely free from poison. We are personally acquainted with the proprietor, who was our family Physician for several years, and we were at one time raised from a bed of affliction under his judicious treatment."—*Christian Family Companion.*

FAHRNEY'S BLOOD SEARCHER.—From our personal acquaintance with Dr. P. Fahrney, and from the reputation of the above named medicine in the community where he lives, we can cheerfully recommend it to a fair trial to all who may need a PANACEA for the physical maladies of mortality—until the great PANACEA for all diseases shall be found in the leaves of the tree of life.—*Prophetic Watchman.*

Sold by Tolman, Crosby & Co., Wholesale Druggists, Chicago, Ill., and by B. A. Fahnestock's Son & Co., Pittsburg, Pa.

Also by A. D. BUEHLER, Gettysburg; Dr. JAMES CRESS, Littlestown, and SHIELDS & MUSSELMAN, Fairfield, Adams county, and by Storekeepers and Druggists generally.

PLASTER.

However much lime or other fertilizer may be applied to the soil, still [illegible] benefit is derived from the use of plaster (sulphate of lime).

After all, plaster is the main dependence of the potato grower, a help on which he may rely with the utmost confidence. Astonishing results are obtained from its use, when applied in a proper manner. The writer has seen a field, all of the same soil, all prepared alike and planted with the same variety at the same time, on one half of which, that had no plaster, the yield was about sixty bushels per acre, and nearly rotten; the other part to which plaster was applied, yielded three hundred and sixty bushels per acre, and not an unsound one among them.

It is said plaster is of most benefit in wet seasons; such is not always the case. It is evidently beneficial to [illegible] dry [illegible] of potatoes.

A few years since, when the drouth was so intense as to render the general potato crop almost an entire failure, the writer produced a plentiful crop by the use of plaster alone. On examination at the dryest time, the bottoms of the hills were found to be literally wet, [illegible] the tubers were [illegible] finely; the leaves and vines were of a deep rich green, and remained so until frost, while other fields in sight, planted with the same variety, but not treated with plaster, were brown, dead and not worth digging. The gypsum attracts moisture may be proved by plastering a hill of corn and [illegible] a hill [illegible] at night [illegible], the dew will be found [illegible] in greater abundance on the plastered hill. But, according to [illegible], certain products [illegible] combination of plaster enter [illegible] operated with [illegible] of the plant, closing its breathing [illegible] to such an extent that the plant is enabled to withstand the drought which would prove fatal to it unassisted.

Certain it is that plaster renders plants less liable to disease, and, so far as the writer's experiment extend, it is fatal to many of the fungi family. To obtain the best results, the vines of potatoes should be dusted with plaster as soon as they are fairly through the [illegible] immediately after the last [illegible] and hoeing, and at intervals throughout the whole growing season. The [illegible] application may be light, the second heavier, and thereafter it should be bountifully applied, say two hundred [illegible] per acre at one sowing.

RAISE SHEEP [illegible] MUTTON.

[illegible] well fattened and [illegible] butchered [illegible] the most wholesome [illegible] of meats, [illegible] and costs little to produce it, compared with beef and pork. Every farmer should have a [illegible] wooded flock of sheep, at least Cotswold or Leicester. They [illegible] early lambs, which will [illegible] to the butcher for from [illegible] to [illegible] the first of July. Their fleeces [illegible] from eight to fourteen pounds, with from sixteen to twenty-[illegible] per cent. shrinkage only. Their wool is now, and will be, in the future, worth fully [illegible] per cent. more than Merino wool, which shrinks 50 to 60 per cent. [illegible] to the twenty one [illegible] long wool [illegible] excellent and durable [illegible] mostly used [illegible] the [illegible], belt and [illegible] Orleans goods, for the apparel of our pretty women. Two such sheep [illegible] profit at a common [illegible], and five of them can be kept as [illegible] cow in milk. Their lambs and mutton would keep a farmer supplied with the best of fresh meat of any kind, as often as necessary, the [illegible] round, and would make an [illegible] change with the eternal round of salt junk and pork, and be far more healthy than either. Those [illegible] eat principally salted meats, [illegible] it in their complexion, their [illegible] Pork, [illegible] eaten constantly, produces [illegible] and eruptions of the skin.

We have now plenty of sheep in the country [illegible] head [illegible] than ever before, according to the population. Then let all manufacturers, mechanics, and all men who are interested to have good meat and the board of operatives cheap and wholesome, see to it that mutton raising and wool growing are properly encouraged, as a matter of health and economy. [illegible] in the [illegible] of board of operatives [illegible] If we grow our own wool we shall always have mutton plenty and cheap. [illegible] will affect [illegible] other meat.—*Farm and [illegible]*

PROTECTION AGAINST MOTHS.—We have every spring many modes offered for protecting furs and woolens against the destructive attacks of the moth during the warm weather. We have [illegible] preparations sold for this [illegible] with long accounts appended [illegible] perfect remedies. Red cedar chests and closets are recommended, and many people cumber their houses with them at considerable expense only to find out how grievously they have been disappointed.

The best protection we ever tried [illegible] to tie up in close cotton bags all furs and woolens at all convenient to be so treated, after giving them a thorough shaking and cleaning, and letting them there until they are again wanted. These bags can be hung anywhere out of the way. If there are no moths in the articles when tied up they certainly can none get in afterward, if the bags are sound. All can see that. But when the clothes or articles are too numerous to make that convenient or desirable hang up in the wardrobe, after a good shaking out, and place little bags of camphor all over the wardrobe, laying a few in the bottom. Then, about every three weeks take out the clothes and shake them up well. No moth will ever disturb them.

MINCED EGGS. Take four or five hard boiled eggs; shell them and mince them, but not too small. Thicken a breakfast cup full of gravy or milk, with sufficient flour rolled in butter; add some savory herbs, chopped small; season with Cayenne or white pepper, a little nutmeg, and salt; simmer for ten minutes, put in the eggs, shake it gently round and round over the fire for a few minutes and serve garnished with sippets of toast and small pieces of sliced lemon. Any particular flavor may be given to this dish, to suit the taste.

DURING the delivery of a lecture by Mrs. Dr. Walker, in Kansas, a few days ago, a precious youth in the audience cried out, "Are you the Mary that had a little lamb?"

"No," was the ready reply, "but your mother had a little jackass."

GLOBE INN,

FAMILY

SEWING MACHINES

495 *Broadway, New York,*

730 *Chestnut Street, Philadelphia.*

POINTS OF EXCELLENCE.

Beauty and Elasticity of Stitch.
Perfection and Simplicity of Machinery.
Using both threads directly from the spools.
No fastening of seams by hand and no waste of thread.
Wide range of application without change of adjustment.
The seam retains its beauty and firmness after washing and ironing.
Besides doing all kinds of work done by other Sewing Machines, these Machines execute the most beautiful and permanent Embroidery and ornamental work.

The Highest Premiums at all the Fairs and Exhibitions of the United States and Europe, have been awarded the Grover & Baker Sewing Machines, and the work done by them, wherever exhibited in competition.

The very highest prize, THE CROSS OF THE LEGION OF HONOR, was conferred on the representative of the Grover & Baker Sewing Machines, at the Exposition Universelle, Paris, 1867, thus attesting their great superiority over all other Sewing Machines.

For sale by D. W. ROBISON, Gettysburg.

NOTICE.

THE undersigned, having had 17 years experience as a practical Operator on Sewing Machines, would recommend the Grover & Baker Family Machine as the cheapest and best machine for family use. The simplicity of construction and elasticity of stitch made by these machines are two very important points in their favor. 240,000 of these machines are today in use, testifying to the truth of our assertions and the demand is steadily increasing.

We have also Shuttle Machines on hand for Tailors and Coach Trimmers' use. Call and see them.

THE GREAT

Medical Discovery!

DR. WALKER'S

CALIFORNIA VINEGAR BITTERS.

MORE THAN 500,000 PERSONS bear testimony to their wonderful Curative Effects.

WHAT ARE THEY?

They are a gentle Purgative as well as a Tonic, possessing also the peculiar merit of acting as a powerful agent in relieving Congestion, or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or the turn of life, these Tonic Bitters have no equal.

Send for a Circular.

THEY ARE NOT A VILE FANCY DRINK, Made of POOR RUM, WHISKY, PROOF SPIRITS, AND REFUSE LIQUORS, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the native Roots and Herbs of California, FREE FROM ALCOHOLIC STIMULANTS. They are the GREAT BLOOD PURIFIER and LIFE GIVING PRINCIPLE, a perfect Renovator and Invigorator of the system, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters according to directions, and remain long unwell.

$100 will be given for an incurable case, provided the bones are not destroyed by mineral poisons or other means, and the vital organs wasted beyond the point of repair.

For INFLAMMATORY and CHRONIC RHEUMATISM and GOUT, DYSPEPSIA, or INDIGESTION, BILIOUS, REMITTENT, AND INTERMITTENT FEVERS, DISEASES OF THE BLOOD, LIVER, KIDNEYS, and BLADDER, these BITTERS have been most successful. SUCH DISEASES are caused by VITIATED BLOOD, which is generally produced by derangement of the DIGESTIVE ORGANS.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE, and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed.

In Bilious, Remittent and Intermittent Fevers, these Bitters have no equal. For full directions read carefully the circular around each bottle, printed in four languages, English, German, French and Spanish.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD,

THE reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this SARSAPARILLA: *St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This SARSAPARILLA is a great restorer of the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

FORNEY'S

Horse & Cattle Powder.

This Preparation has become a great favorite with the people of Adams county—will thoroughly reinvigorate broken down and low spirited horses, by strengthening and cleansing the stomach and intestines. It is a sure preventive of all diseases. Its use improves the wind, increases the appetite, gives a smooth and glossy skin, and transforms the skeleton into a fine looking and spirited horse.

To Keepers of Cows this preparation is invaluable. It increases the quantity and improves the quality of the milk and makes the Butter firm and sweet. In fattening Cattle it gives them an appetite, loosens their hides and makes them thrive much faster.

In all diseases of swine this article acts as a specific; by putting from a quarter to half a paper in a barrel of swill, the diseases will be eradicated or entirely prevented. If given in time a certain preventive for Cholera. Price 40 cents per pound paper; 3 for $1.

BE WISE

WHILE wisdom will benefit you; be not always controlled by your incredulity. Hundreds have sought relief from the horrors of Dyspepsia through the medium of DEMPFF'S ANTI-DYSPEPTIC STOMACH BITTERS and found it. Why should you suffer when this admirable stomachic has cured many similar cases—why do you doubt, while others believe and are cured? Delay in this matter is both dangerous and unprofitable, your health, happiness, and business suffers, while constant neglect is frequently followed by serious and uncontrollable results. DEMPFF'S BITTERS are equally useful in the numerous difficulties *attending* Indigestion; as BILIOUSNESS, CONSTIPATION, &c., while for FEVER and AGUE and other disorders proceeding from MIASMATA, it is the only reliable preventive and remedy known.

MOTHERS! Mrs. Reed's Infant Relief cures Summer Complaint, Diarrhea, Colic, &c., and is indispensable in the nursery during the teething period; it relieves pain, allays inflammation, regulates the bowels, and promotes natural sleep.

Ayer's

HAIR VIGOR,

For Restoring GRAY HAIR to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.
